

The plasmid to express EGFP in EGR-G101 cell line was described in the following paper. In relation to the poly-A signal, it was described in the paper that the poly-A signal was that derived from bovine growth hormone. However, it was wrong and it was the poly-A signal derived from rabbit β globin. The corrigendum was also published.

Real-time observation of acrosomal dispersal from mouse sperm using GFP as a marker protein. FEBS Lett. 1999 Apr 23; 449(2-3): 277-283.
