

Application consideration

RCB0184 : OLF-136

Please keep in mind following points:

1. This cell line grows slowly.
2. Please do not plate the cells at a low density
3. Please thaw the cells quickly at 37°C.
however note the incubation temperature is 25°C.
4. Please use a flask possessing a cap without a filter and
tightly screw the cap during culture.
