

Month/Day/Year

To whom it may concern,

The following cell line was provided to the user Dr.????, on Month/Day/Year:

Cell Name: ???? (RCB ????)

Prior to the provision, the following validation of the above cell line was performed:

Isoenzyme analysis:

Isoenzyme analysis demonstrated that this cell line was derived from mouse.

Mycoplasma infection:

Vero cells were cultured for 5 days in the presence of the culture supernatant of the cell line. The cultured Vero cells were stained with Hoechst 33258 for DNA staining, and no extra-nuclear DNA staining was detected indicating that the presence of mycoplasma in the culture supernatant of the cell line was below the detection level.
